Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 13 is rejected under 35 U.S.C. 103(a) as being unpatentable over Iwasaki Hironori (JP 816233).

3. Regarding claim 13, Iwasaki Hironori, see figure 5, discloses a method of using card slot assembly and appears to disclose steps of: installing the card slot assembly in an electronic instrument which is able to access a card 2 received within the card slot assembly; detecting 1 whether the card is accessed the electronic instrument and in a case when the card is accessed by the electronic instrument forcing a solenoid mechanism 7a supporting a rod member 14a movably in an axial direction of the rod between a first rod position and a second rod position. While the patent disclosure is unclear. It is asserted that it would have been obvious to one of ordinary skill in the art at the time the invention was made to form the Iwasaki Hironori device to operate by steps a recited in the claim.

Allowable Subject Matter

4. Claims 1-12 are allowed.
5. The following is an examiner's statement of reasons for allowance:

6. None of the reference discloses crank mechanism, which is coupled to the rod member is positioned close to the locking member and the crank mechanism movements of the rod member into a rotation force and rotates the locking member from the first rotational position towards the second rotational position by means of the rotation force.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
